

Prewikka - Bug #148

Prewikka 0.9.4 crashes when the 'Filter on Target' option is used

Resolution:	fixed		

Description

In the eventlisting, clicking on an IP address and selecting 'Filter on this Target' will result in a crash (see backtrace below).

The crash is caused by the fact that in the created filter string `alert.target.node.address` is used instead of `alert.target.node.address.address`.

The attached patch fixes this.
