

LibpreludeDB - Bug #337

Fake result number of deleted records in preludedb-admin

12/08/2008 05:16 PM -

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	0.9.16		
Resolution:			
Description			
The output of preludedb-admin was:			
delete event failed: Lost connection to [[MySQL]] server during query.			
Error at transaction 448000. Use --offset 874000 to resume operation.			
2152124949 'delete' events processed in 2783.401760 seconds (0.000001 seconds/events - 773199.535880 delete/sec average).			
2152124949 events processed in 2783.401760 seconds (0.000001 seconds/events - 773199.535880 events/sec average).			
2152124949 is the fake as '--offset 874000' says where it stopped.
