Target version:	0.9.0		
Resolution:	fixed		

Description

Hi partners,

Actually, I installed prelude-correlation to my Prelude-Manager server. The registration was successful and is in line. However, the rise of process prelude-correlation so successful but I get the following error and I do not see the prewikka events in the [[CorrelationAlerts]].

The error is:

WARNING: idmef-path: could not set output path 'alert.assessment.impact.severity': IDMEF path copy of type 'string' to 'enum' is forbidden.

Can you help me with this problem?

I have prelude-correlator_0.9.0~beta3-1_i386.deb installed.

Best Regards,

History

hi jwalton,

I dont have can

#3 - 03/30/2009 06:23 PM - Yoann VANDOORSELAERE

- Status changed from New to Closed

- Resolution set to fixed

Updating to a libprelude version >= 0.9.19 should fixes your problem.
Thanks for reporting it.

#4 - 04/29/2009 12:20 PM - Yoann VANDOORSELAERE

- Project changed from PRELUDE SIEM to Prelude Correlator
