#### Description

In Prewikka version 1.0.0rc1, on the page Statistics -> Sources I get the following error:

```
'NoneType' object has no attribute 'replace'
```

Traceback (most recent call last):

Additional note:

I have the same error on Statistics -> Analyzers:

Traceback (most recent call last):

```
File "/usr/lib/python2.5/site-packages/prewikka/Core.py", line 335, in process
  getattr(view_object, view["handler"])()
File "/usr/lib/python2.5/site-packages/prewikka/views/stats.py", line 751, in render
  self._renderClassesTrend(criteria)
File "/usr/lib/python2.5/site-packages/prewikka/views/stats.py", line 740, in _renderClassesTrend
  "alert.analyzer(-1).class", criteria, limit = 10, zoom_type="analyzer_classes_trend")
File "/usr/lib/python2.5/site-packages/prewikka/views/stats.py", line 405, in _addTimelineChart
  c += "%s = '%s'" % (self._path, utils.escape_criteria(name))
File "/usr/lib/python2.5/site-packages/prewikka/utils.py", line 72, in escape_criteria
  return criteria.replace("\\", "\\\\").replace("'", "\\'")
AttributeError: 'NoneType' object has no attribute 'replace'
```

It seems to happen when there are alerts with empty sources (marked as n/a in prewikka).
