

LibpreludeDB - Bug #37

Handling of idmef_time_t in libpreludedb

07/05/2004 10:29 PM - Yoann VANDOORSELAERE

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Resolution:	fixed		
Description idmef_time_t has been modified so that the time reported by sensor is UTC, and a sensor specific GMT offset is provided in case the user want to sort alert by the sensor specific timezone. This modification has to be implemented in libpreludedb: the GMT offset of the sensor should be stored in the database.
