Description			
Hello,			
We are working on getting the prelude suite updated in gentoo portage, and updating the gentoo hardened project's documentation on prelude.			
During this process we noticed that prelude-correlator ignores the -c option passed to set the configuration file path. Also, the default supplied configuration file does not work.			
Attached is a patch to fix both these issues.			

History

- #1 - 05/31/2011 07:49 AM - Yoann VANDOORSELAERE
- Project changed from PRELUDE SIEM to Prelude Correlator
- #2 - 02/16/2012 07:24 PM - Thomas GIRARD
- Assignee set to Lam HUYNH
- mettre
- #3 - 03/02/2016 01:59 PM - Antoine LUONG
- Status changed from New to Resolved
- Assignee changed from Lam HUYNH to Yoann VANDOORSELAERE

Fixed in [68a5806ff499eec4e4a6816135b75f7ffbc66d0f](#).
