

PRELUDE SIEM - Bug #902

Prewikka requirement

09/06/2017 10:10 AM - Aspel Lip

Status:	Closed	Start date:	09/06/2017
Priority:	Normal	Due date:	
Assignee:	Antoine LUONG	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Resolution:			
Description			
RPM package prewikka-4.0.0 has a requirement python-mako >= 0.8.1 https://www.prelude-siem.org/pkg/redhat/6/noarch/prewikka-4.0.0-1.el6.noarch.rpm			
But CentOS 6.9 does not have python-mako >= 0.8.1.			
To install this framework I have to download rpm, install in with option --nodeps After that I have to use pip to install "Mako".			

History

- Status changed from New to Assigned
- Assignee set to Antoine LUONG

I guess we could add the python-mako 0.8.1 package in our repository.

Please note that we plan to provide packages for CentOS 7 for newer Prelude versions (>= 4.1) and drop the CentOS 6 support.

#2 - 08/20/2018 08:24 AM - Antoine LUONG

- Status changed from Assigned to Closed

The CentOS 6 support was dropped in 4.1.
